

Abound Food Care

Greater Food Security
Less Food Waste

FOOD DONATION COORDINATION

We implement food donation programs that help food businesses comply with state food recovery laws while reducing food waste and operational costs.

THE PROBLEM

Food businesses face complexity in donating excess edible food safely, efficiently, and in compliance with food recovery laws.

THE SOLUTION

Abound Food Care streamlines food donation by connecting businesses with nonprofit recipients and coordinating safe, efficient recovery. Stronger food donation networks improve coordination between businesses and nonprofit recipients, making it easier for excess edible food to reach communities safely and efficiently.

BENEFITS

Support for Donation Compliance

We build food donation programs to help food businesses reach compliance with state food recovery laws (ex: CA SB1383).

Stronger Food Donation Networks

Coordinated food donation programs improve communication between donors and recipient organizations ultimately streamlining the donation process.

Access to Food Donation Technology

We provide access to a food donation platform that coordinates safe and efficient food donations between donors and nonprofit recipients.

Less Food Waste and Food Insecurity

We coordinate food donations to reduce food waste and increase the amount of nutritious food for communities in need.

Operational Costs Reduction

We help reduce operational costs by streamlining donations and providing data-driven insights that help improve purchasing accuracy, inventory management, and waste reduction.

We optimize food systems to create healthy, **food secure** communities.

WHO DO WE WORK WITH?

We align resources and create public, private, and nonprofit partnerships in the food system for greater food security.

Our solutions are designed to function independently or as part of a coordinated regional model, creating greater impact through collaboration, shared resources, and system-wide efficiency.
