

Abound Food Care

Greater Food Security
Less Food Waste

REGIONAL PROGRAMS AND ALLIANCES

We align public, private, and nonprofit stakeholders to design and implement food system programs and cross-sector alliances that strengthen local food systems and expand their capacity to distribute food to communities in need.

THE PROBLEM

Regional food systems are often fragmented and poorly coordinated. This limits collaboration, resource efficiency, and long-term community impact.

THE SOLUTION

Through stakeholder alignment, resource coordination, and integrated solutions, we provide strategic guidance and implementation support by analyzing the food system and designing a customized regional model to increase access to nutritious food, reduce waste, and build stronger, more efficient food systems over time.

BENEFITS

Connect Stakeholders Across the Regional Food System

We bring together multi-sector stakeholders to address complex food system challenges with coordinated and scalable solutions.

Align Regional Resources

We coordinate funding, infrastructure, data, and operations across stakeholders to deploy resources efficiently and where they are most needed.

Strengthen Regional Capacity and Coordination

Through system-wide planning and coordination, we identify gaps and implement solutions to expand the region's ability to recover and distribute food.

Reduce Fragmentation

We create the structure needed to streamline efforts and improve communication, logistics, and decision making across the food system.

Develop Scalable Regional Models

Our programs utilize repeatable frameworks that can be adapted to strengthen food systems in any region.

We optimize food systems to create healthy, **food secure** communities.

Communities

WHO DO WE WORK WITH?

We align resources and create public, private, and nonprofit partnerships in the food system for greater food security.

Our solutions are designed to function independently or as part of a coordinated regional model, creating greater impact through collaboration, shared resources, and system-wide efficiency.

“This unique partnership between the Cities and County exemplifies regional collaboration to tackle food insecurity and waste. Our region is fortunate to have a robust food recovery network, and this program is helping to strengthen it even further.”

— Dr. Olivia Kasirye | Public Health Officer - Sacramento County

About Abound Food Care

As an insider with decades of expertise, we have the unique skills and knowledge to solve complex food system problems to empower nonprofits to feed more people.

Since our inception, we have empowered hundreds of stakeholders to create healthier communities by improving food access and reducing waste.
